

Editorial

We're offering the first issue of the 14th volume of *Filosofia Unisinos*, journal of Philosophy, with seven articles, three coming from Brazilian scholars and four from abroad; three are in English, two in Spanish and two in Portuguese. All spontaneous applications made by researchers attracted by the quality of the indexers we have that gives them the opportunity for being widely known and being able to know the H factor of their work.

I, Alfredo Culleton, as the editor of this journal for the last five years and now leaving, want to thank authors, referees, reviewers, the Unisinos editorial staff and the editorial board, for their patience, discipline and friendship in all this time, in which I gave a lot and learned much more. I wish Adriano Naves de Brito success as the new editor. I'm sure he will boost the vocation that *Filosofia Unisinos* has to be an international reference journal in the field of Philosophy.
